ACTION I

AMENDMENT OF THE COMPANY'S AMENDED AND RESTATED ARTICLES OF INCORPORATION TO EFFECT THE NAME CHANGE

The Board of Directors and holders of a majority of the voting power of the Company's outstanding capital stock have approved an amendment (the "**First Amendment**") to the Company's Articles to change the name of the Company to "Marathon Patent Group, Inc.," in the form attached hereto as **Appendix A**.

The Board of Directors believes the Name Change will be in the best interest of the Company as the new name better reflects the long-term strategy and identity of the Company. While the "American Strategic Minerals Corporation" name has served the Company over time, the Company's management believes this opportunity presented the right timing to change the Company's name. Management also believes that the new name effectively conveys the Company's business direction.

To better reflect the Company's new business direction, the Board of Directors and the majority of the Company's shareholders determined that the Company should change its name to Marathon Patent Group, Inc.

No Appraisal Rights

Under Nevada law and the Company's charter documents, holders of the Company's Common Stock will not be entitled to dissenter's rights or appraisal rights with respect to the Name Change.

ACTION II

TO AUTHORIZE THE BOARD OF DIRECTORS TO EFFECTUATE THE AMENDMENT OF THE COMPANY'S AMENDED AND RESTATED ARTICLES OF INCORPORATION TO EFFECT THE REVERSE SPLIT OF COMMON STOCK

The Board of Directors and the holders of a majority of the voting power of the Company's shareholders have adopted resolutions approving an amendment to the Company's Articles (the "**Reverse Split Amendment**") to effect a Reverse Split of the Company's issued and outstanding Common Stock (the "**Reverse Split**"), as described below.

The form of the amendment to the Company's Articles to effectuate a Reverse Split of the Company's issued and outstanding Common Stock will be substantially as set forth on **Appendix B** (subject to any changes required by applicable law). The Reverse Split would permit (but not require) the Company's Board of Directors to effect a Reverse Split of the Company's issued and outstanding Common Stock by a ratio of two-for-three within one year of receipt of approval by the shareholders of the Company, provided that the Board of Directors determines to effect the Reverse Split and such amendment is filed with the Secretary of State of Nevada.

The Board of Directors reserves the right to elect to abandon the Reverse Split if it determines, in its sole discretion, that the Reverse Split is no longer in the best interests of the Company and its shareholders. Any fractional shares will be rounded up to the next whole number.

Background and Reasons for the Reverse Split; Potential Consequences of the Reverse Split

The Board of Directors is effecting a Reverse Split, with the approval of a majority of the Company's voting shareholders with the primary intent of increasing the market price of the Company's Common Stock to make the Common Stock more attractive to a broader range of institutional and other investors. In addition to potentially increasing the market price of the Common Stock, the Reverse Split would also reduce certain costs, as discussed below. Accordingly, for these and other reasons discussed below, the Company believes that effecting the Reverse Split is in the Company's and the Company's shareholders' best interests.

The Board of Directors believes that an increased stock price may encourage investor interest and improve the marketability of the Common Stock to a broader range of investors, and thus enhance liquidity. Because of the trading volatility often associated with low-priced stocks, many brokerage firms and institutional investors have internal policies and practices that either prohibit them from investing in low-priced stocks or tend to discourage individual brokers from recommending low-priced stocks to their customers. Additionally, because brokers' commissions on lower-priced stocks generally represent a higher percentage of the stock price than commissions on higher-priced stocks, the current share price of the Common Stock can result in an individual stockholder paying transaction costs that represent a higher percentage of total share value than would be the case if the share price of the Common Stock were substantially higher. This factor may also limit the willingness of institutions to purchase the Common Stock. The Board of Directors believes that the anticipated higher market price resulting from the Reverse Split could enable institutional investors and brokerage firms with such policies and practices to invest in the Common Stock.

Although the Company expects the Reverse Split will result in an increase in the market price of the Common Stock, the Reverse Split may not increase the market price of the Common Stock in proportion to the reduction in the number of shares of the Common Stock outstanding or result in a permanent increase in the market price, which is dependent upon many factors, including the Company's performance, prospects and other factors detailed from time to time in its reports filed with the Securities and Exchange Commission. The history of similar reverse stock splits for companies in like circumstances is varied. If the Reverse Split is effected and the market price of the Common Stock declines, the percentage decline as an absolute number and as a percentage of the Company's overall market capitalization may be greater than would occur in the absence of a reverse stock split.

Procedure for Implementing the Reverse Split

The Reverse Split will become effective upon the filing (the "**Effective Time**") of a certificate of amendment (the "**Second Amendment**"), a form of which is annexed hereto as **Appendix B**, to the Company's Articles with the Secretary of State of the State of Nevada. The exact timing of the filing of the Amendment that will effect the Reverse Split will be determined by the Board of Directors based on its evaluation as to when such action will be the most advantageous to the Company and the Company's shareholders, but may not occur subsequent to the date that shall be one year from the date of approval of the shareholders of the Corporation. In addition, the Company's Board of Directors reserves the right, notwithstanding shareholder approval and without further action by the shareholders, to elect not to proceed with the Reverse Split if, at any time prior to filing the Amendment, the Board of Directors, in its sole discretion, determines that it is no longer in the Company's best interest and the best interests of the Company's shareholders to proceed with the Reverse Split.

Effect of the Reverse Split on Holders of Outstanding Common Stock

Each three (3) shares of Common Stock will be combined into two (2) new shares of Common Stock. Based on 33,012,152 shares of Common Stock issued and outstanding as of _____, 2012, immediately following the Reverse Split the Company would have approximately 22,008,101 shares of Common Stock issued and outstanding (without giving effect to rounding for fractional shares).

The Reverse Split will affect all holders of the Company's Common Stock uniformly and will not affect any shareholder's percentage ownership interest in the Company, except that as described below in "— Fractional Shares," record holders of Common Stock otherwise entitled to a fractional share as a result of the Reverse Split will be rounded up to the next whole number. In addition, the Reverse Split will not affect any shareholder's proportionate voting power (subject to the treatment of fractional shares).

The Reverse Split may result in some shareholders owning "odd lots" of less than 100 shares of Common Stock. Odd lot shares may be more difficult to sell, and brokerage commissions and other costs of transactions in odd lots are generally somewhat higher than the costs of transactions in "round lots" of even multiples of 100 shares.

After the Effective Time, the Company's Common Stock will have new Committee on Uniform Securities Identification Procedures (CUSIP) numbers, which is a number used to identify the Company's equity securities, and stock certificates with the older CUSIP numbers will need to be exchanged for stock certificates with the new CUSIP numbers by following the procedures described below. After the Reverse Split, the Company will continue to be subject to the periodic reporting and other requirements of the Exchange Act. The Common Stock will continue to be quoted on the Over-the-Counter Bulletin Board, subject to any decision of the Company's Board of Directors to list the Company's securities on a stock exchange. However, as a result of the Name Change, it is possible that the Company's ticker symbol will be changed.

Authorized Shares of Common Stock

The Reverse Split will not change the number of authorized shares of the Common Stock under the Company's Articles. Because the number of issued and outstanding shares of Common Stock will decrease, the number of shares of Common Stock remaining available for issuance will increase. Under the Company's Articles, the Company's authorized capital stock consists of 200,000,000 shares of Common Stock and 50,000,000 shares of "blank check" preferred stock, par value \$0.0001.

By increasing the number of authorized but unissued shares of Common Stock, the Reverse Split could, under certain circumstances, have an anti-takeover effect, although this is not the intent of the Board of Directors. For example, it may be possible for the Board of Directors to delay or impede a takeover or transfer of control of the Company by causing such additional authorized but unissued shares to be issued to holders who might side with the Board of Directors in opposing a takeover bid that the Board of Directors determines is not in the best interests of the Company or its shareholders. The Reverse Split therefore may have the effect of discouraging unsolicited takeover attempts. By potentially discouraging initiation of any such unsolicited takeover attempts the Reverse Split may limit the opportunity for the Company's shareholders to dispose of their shares at the higher price generally available in takeover attempts or that may be available under a merger proposal. The Reverse Split may have the effect of permitting the Company's current management, including the current Board of Directors, to retain its position, and place it in a better position to resist changes that shareholders may wish to make if they are dissatisfied with the conduct of the Company's business. However, the Board of Directors is not aware of any attempt to take control of the Company and the Board of Directors has not approved the Reverse Split with the intent that it be utilized as a type of anti-takeover device.

Beneficial Holders of Common Stock (i.e., shareholders who hold in street name)

Upon the implementation of the Reverse Split, the Company intends to treat shares held by shareholders through a bank, broker, custodian or other nominee in the same manner as registered shareholders whose shares are registered in their names. Banks, brokers, custodians or other nominees will be instructed to effectuate the Reverse Split for their beneficial holders holding the Common Stock in street name. However, these banks, brokers, custodians or other nominees may have different procedures than registered shareholders for processing the Reverse Split. Shareholders who hold shares of the Common Stock with a bank, broker, custodian or other nominee and who have any questions in this regard are encouraged to contact their banks, brokers, custodians or other nominees.

Registered “Book-Entry” Holders of Common Stock (i.e., shareholders that are registered on the transfer agent’s books and records but do not hold stock certificates)

Certain of the Company’s registered holders of Common Stock may hold some or all of their shares electronically in book-entry form with the transfer agent. These shareholders do not have stock certificates evidencing their ownership of the Common Stock. They are, however, provided with a statement reflecting the number of shares registered in their accounts.

Shareholders who hold shares electronically in book-entry form with the transfer agent will not need to take action (the exchange will be automatic) to receive whole shares of post-Reverse Split Common Stock, subject to adjustment for treatment of fractional shares.

Holders of Certificated Shares of Common Stock

Shareholders holding shares of the Company’s Common Stock in certificated form will be sent a transmittal letter by the Company’s transfer agent after the Effective Time. The letter of transmittal will contain instructions on how a shareholder should surrender his, her or its certificate(s) representing shares of the Common Stock (the “**Old Certificates**”) to the transfer agent in exchange for certificates representing the appropriate number of whole shares of post-Reverse Split Common Stock (the “**New Certificates**”). No New Certificates will be issued to a shareholder until such shareholder has surrendered all Old Certificates, together with a properly completed and executed letter of transmittal, to the transfer agent. No shareholder will be required to pay a transfer or other fee to exchange his, her or its Old Certificates. Shareholders will then receive a New Certificate(s) representing the number of whole shares of Common Stock that they are entitled as a result of the Reverse Split, subject to the treatment of fractional shares described below. Until surrendered, the Company will deem outstanding Old Certificates held by shareholders to be cancelled and only to represent the number of whole shares of post-Reverse Split Common Stock to which these shareholders are entitled, subject to the treatment of fractional shares. Any Old Certificates submitted for exchange, whether because of a sale, transfer or other disposition of stock, will automatically be exchanged for New Certificates. If an Old Certificate has a restrictive legend on the back of the Old Certificate(s), the New Certificate will be issued with the same restrictive legends that are on the back of the Old Certificate(s).

SHAREHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATE(S) AND SHOULD NOT SUBMIT ANY STOCK CERTIFICATE(S) UNTIL REQUESTED TO DO SO.

Fractional Shares

The Company does not currently intend to issue fractional shares in connection with the Reverse Split. Therefore, the Company will not issue certificates representing fractional shares. In lieu of issuing fractions of shares, the Company will round up to the next whole number.

Effect of the Reverse Split on Employee Plans, Options, Restricted Stock Awards and Units, Warrants, and Convertible or Exchangeable Securities

Proportionate adjustments will be made based on the ratio of the Reverse Split to the per share exercise price and the number of shares issuable upon the exercise or conversion of all outstanding options, warrants, convertible or exchangeable securities entitling the holders to purchase, exchange for, or convert into, shares of Common Stock. This will result in approximately the same aggregate price being required to be paid under such options, warrants, convertible or exchangeable securities upon exercise, and approximately the same value of shares of Common Stock being delivered upon such exercise, exchange or conversion, immediately following the Reverse Split as was the case immediately preceding the Reverse Split. The number of shares deliverable upon settlement or vesting of restricted stock awards will be similarly adjusted, subject to the Company’s treatment of fractional shares. The number of shares reserved for issuance pursuant to these securities will be proportionately based upon the Reverse Split ratio, subject to the Company’s treatment of fractional shares.

Effect on Par Value

The Amendment will not affect the par value of the Company's Common Stock, which will remain \$0.0001 per share.

Accounting Matters

As of the Effective Time, the stated capital attributable to Common Stock and the additional paid-in capital account on the Company's balance sheet will not change due to the Reverse Split. Reported per share net income or loss will be higher because there will be fewer shares of Common Stock outstanding.

Certain Federal Income Tax Consequences of the Reverse Split

The following summary describes certain material U.S. federal income tax consequences of the Reverse Split to holders of the Company's Common Stock.

Unless otherwise specifically indicated herein, this summary addresses the tax consequences only to a beneficial owner of the Common Stock that is a citizen or individual resident of the United States, a corporation organized in or under the laws of the United States or any state thereof or the District of Columbia or otherwise subject to U.S. federal income taxation on a net income basis in respect of the Common Stock (a "**U.S. holder**"). A trust may also be a U.S. holder if (1) a U.S. court is able to exercise primary supervision over administration of such trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (2) it has a valid election in place to be treated as a U.S. person. An estate whose income is subject to U.S. federal income taxation regardless of its source may also be a U.S. holder. This summary does not address all of the tax consequences that may be relevant to any particular investor, including tax considerations that arise from rules of general application to all taxpayers or to certain classes of taxpayers or that are generally assumed to be known by investors. This summary also does not address the tax consequences to (i) persons that may be subject to special treatment under U.S. federal income tax law, such as banks, insurance companies, thrift institutions, regulated investment companies, real estate investment trusts, tax-exempt organizations, U.S. expatriates, persons subject to the alternative minimum tax, traders in securities that elect to mark to market and dealers in securities or currencies, (ii) persons that hold the Common Stock as part of a position in a "straddle" or as part of a "hedging," "conversion" or other integrated investment transaction for federal income tax purposes, or (iii) persons that do not hold the Common Stock as "capital assets" (generally, property held for investment).

If a partnership (or other entity classified as a partnership for U.S. federal income tax purposes) is the beneficial owner of the Common Stock, the U.S. federal income tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. Partnerships that hold the Common Stock, and partners in such partnerships, should consult their own tax advisors regarding the U.S. federal income tax consequences of the Reverse Split.

This summary is based on the provisions of the Internal Revenue Code of 1986, as amended, U.S. Treasury regulations, administrative rulings and judicial authority, all as in effect as of the date of this information statement. Subsequent developments in U.S. federal income tax law, including changes in law or differing interpretations, which may be applied retroactively, could have a material effect on the U.S. federal income tax consequences of the Reverse Split.

PLEASE CONSULT YOUR OWN TAX ADVISOR REGARDING THE U.S. FEDERAL, STATE, LOCAL, AND FOREIGN INCOME AND OTHER TAX CONSEQUENCES OF THE REVERSE SPLIT IN YOUR PARTICULAR CIRCUMSTANCES UNDER THE INTERNAL REVENUE CODE AND THE LAWS OF ANY OTHER TAXING JURISDICTION.

U.S. Holders

The Reverse Split should be treated as a recapitalization for U.S. federal income tax purposes. Therefore, a shareholder generally will not recognize gain or loss on the Reverse Split, except to the extent of cash, if any, received in lieu of a fractional share interest in the post-Reverse Split shares. The aggregate tax basis of the post-split shares received will be equal to the aggregate tax basis of the pre-split shares exchanged therefore (excluding any portion of the holder's basis allocated to fractional shares), and the holding period of the post-split shares received will include the holding period of the pre-split shares exchanged. A holder of the pre-split shares who receives cash will generally recognize gain or loss equal to the difference between the portion of the tax basis of the pre-split shares allocated to the fractional share interest and the cash received. Such gain or loss will be a capital gain or loss and will be short term if the pre-split shares were held for one year or less and long term if held more than one year. No gain or loss will be recognized by us as a result of the Reverse Split.

No Appraisal Rights

Under Nevada law and the Company's charter documents, holders of the Company's Common Stock will not be entitled to dissenter's rights or appraisal rights with respect to the Reverse Split.

No Going Private Transaction

Notwithstanding the decrease in the number of outstanding shares following the Reverse Split, the Board of Directors does not intend for this transaction to be the first step in a series of plans or proposals of a "going private transaction" within the meaning of Rule 13e-3 of the Exchange Act.

Interests of Certain Persons in the Action

Certain of the Company's officers and directors have an interest in this Action as a result of their ownership of shares of our common stock, as set forth in the section entitled "Security Ownership of Certain Beneficial Owners and Management" above. However, we do not believe that our officers or directors have interests in this Action that are different from or greater than those of any other of our stockholders.

CERTIFICATE OF AMENDMENT

TO ARTICLES OF INCORPORATION FOR NEVADA PROFIT CORPORATIONS
(Pursuant to NRS 78.385 and 78.390 – After Issuance of Stock)

1. Name of Corporation: Marathon Patent Group, Inc.
2. The Amended and Restated Articles of Incorporation (the “**Articles**”) have been amended as follows:

Article III is hereby amended to replace Section 3.02 as follows:

“3.02 *Common Stock*. The total number of authorized shares of Common Stock shall be two hundred million (200,000,000) shares with a par value of \$0.0001 per share.

Upon the filing of this Amendment with the Secretary of State of the State of Nevada (the “**Effective Time**”), each three (3) outstanding shares of Common Stock (the “**Old Common Stock**”) shall be split and converted into one (2) shares of Common Stock (the “**New Common Stock**”). This reverse stock split (the “**Reverse Split**”) of the outstanding shares of Common Stock shall not affect the total number of shares of Common Stock that the Company is authorized to issue, which shall remain as set forth in the first sentence of this 3.02 of Article III.

The Reverse Split shall occur without any further action on the part of the Corporation or the holders of shares of New Common Stock and whether or not certificates representing such holders’ shares prior to the Reverse Split are surrendered for cancellation. No fractional interest in a share of New Common Stock shall be deliverable upon the Reverse Split, all of which shares of New Common Stock be rounded up to the nearest whole number of such shares. All references to “Common Stock” in these Articles shall be to the New Common Stock.

The Reverse Split will be effectuated on a stockholder-by-stockholder (as opposed to certificate-by-certificate) basis. Certificates dated as of a date prior to the Effective Time representing outstanding shares of Old Common Stock shall, after the Effective Time, represent a number of shares equal to the same number of shares of New Common Stock as is reflected on the face of such certificates, divided by three (3 and multiplied by two (2) and rounded up to the nearest whole number. The Corporation shall not be obligated to issue new certificates evidencing the shares of New Common Stock outstanding as a result of the Reverse Split unless and until the certificates evidencing the shares held by a holder prior to the Reverse Split are either delivered to the Corporation or its transfer agent, or the holder notifies the Corporation or its transfer agent that such certificates have been lost, stolen or destroyed and executes an agreement satisfactory to the Corporation to indemnify the Corporation from any loss incurred by it in connection with such certificates.”

3. The vote by which the stockholders holding shares in the corporation entitling them to exercise at least a majority of the voting power, or such greater proportion of the voting power as may be required in the case of a vote by classes or series, or as may be required by the provisions of the articles of incorporation have voted in favor of the amendment is: ____%
